

# ART TODOROV

JR WEB DEVELOPER / GRAPHIC DESIGNER

## PROFESSIONAL EXPERIENCE

---

### Resident Web Developer

Coding Dojo - Costa Mesa, CA

MAY 2019 — PRESENT

- Learning various languages and building projects focusing on front-end technologies such as JavaScript, Bootstrap, React and Wordpress
- Supplementing with MySQL, MongoDB, Express, and Node.js for fullstack implementation

### Graphic Designer

Sign Specialists Corporation - Santa Ana, CA

JANUARY 2018 — MAY 2019

- Generated shop drawings including measurements and materials for monuments, channel letters, dimensional signs, interior signage and evacuation maps using CorelDRAW Graphics Suite
- Collaborated with project managers to determine solutions for implementing complex projects
- Produced various types of digital files for print, silkscreening, paint, digital foil and CNC/laser cutting prior to production
- Created documentation and master sign programs for projects requiring official city approval
- Utilized CRM system to manage and maintain customer relationships, as well as communicate with the in-house sales, fabrication and human resource teams

### Graphic Designer / Web Designer

Gymonji, Inc. - Irvine, CA

SEPTEMBER 2015 — DECEMBER 2017

- Developed and designed the company website using the Wordpress CMS with a customized theme and integrated full screen brand video
- Configured and orchestrated an online store with a merchandise dropshipping fulfillment service
- Collaborated with the UI/UX Designer creating design assets for the iOS and Android applications
- Designed brand merchandise, configured all files for production and produced all mockup images
- Established a workflow for shipping and handling promotional materials to be sent to customers and sponsored athletes

### UI/UX Designer

Composite Apps - Irvine, CA

JANUARY 2016 — MARCH 2017

- Designed experiences and interfaces for various digital products including mobile, tablet and web applications within imposed limitations
- Collaborated directly with the Design Director to meet client design needs and specifications
- Created product prototypes, wireframes, user personas, user journeys and product vision presentations for stakeholders
- Provided developers with design assets within an iterative environment
- Converted scanned architectural blueprints into vector graphics manually for in app utilization
- Designed swag items, such as company t-shirts, and prepared design files for production process

### Graphic Designer

Money Mailer, LLC - Garden Grove, CA

DECEMBER 2013 — FEBRUARY 2015

- Designed marketing materials and direct mail advertisements for various businesses
- Edited and redesigned prior advertisements used in direct mail marketing campaigns
- Utilized Adobe InDesign script presets to allow clients to make changes manually to running advertisements
- Collaborated with the art coordinators to ensure client satisfaction with all artwork produced prior to deployment
- Inspected image and color formats to allow for optimal final print of artwork
